

# Handwash / Soap

---

We are seeking standard and Therapeutic Goods Administration (TGA) approved handwash produced in Australia.

To enable additional supply, the TGA is also reviewing product regulations for handwash.

## SCOPE

We are looking for the following types of handwash:

### Non-surgical, medicated

- With chlorhexidine, 2%
- With triclosan, 1%

### Non-surgical, non-medicated

### Surgical handwash for hand antisepsis

- With chlorhexidine, 4%
- With povidone iodine, 7.5%

## SPECIFICATIONS

At a minimum, the products must meet the following standards:

- TGA registered
- AS/NZS ISO 9001:2008
- EN1276, prEN12054 and EN1500
- 21CFR 333.470
- ASTM E-1174

- 
- Compatible with Chlorhexidine-based products

- 
- Compatible with other types of handwash listed above
